

ILLUSION – MAYA

Western Tradition Kabbalah - The Perception Gates

We all live in a fantastic World of illusions – **Maya** – which ones are extremely important due very few individuals would support or even face **THE GREATER REALITY**. By addressing illusion thematics we merely refer to a **TRUTH** interpretation or a version of it that can be further expanded, modified, accepted and acknowledged by most people from any specific Ethnic without absolutely no damage to their inner consistence.

Thus, before any further progress, just take note that we shall understand and yet fully comprehend Nature and Mankind as complementary parts of a giant **LIFE MIRACLE!** Due the **CREATOR** ‘sleeps’ at stones, ‘dreams’ at plants’, ‘awakens’ at animals and do ‘reveal’ **HIMSELF** completely at Men. Another common symbolism refers to Onion Petals and each petal represents a cover leaf camouflaging the **Inner Core!**

Thus, a open mind reader shall face several religious tales that in spite of being considered conflictions, all of them derives from the very same **Primordial Essence** and altogether from the same **Divine Origins**.

Since ancient times all **Traditions** of all tribes and nations in every country and continent from all epochs, continuously camouflage **TRUTH** under hermetic emblems, symbols, allegories, metaphors and holy tales.

Therefore, accordingly to each Ethnic habits, uses, environment and neighborhood, each **Tradition** assumed an adequate ‘dressing’ to their epoch. All these cares were taken in order to avoid that a Tribe, Nation, etc., could trace identities with other Ethnic **Traditions** and eventually could abandon his religion, betraying her chiefs, her priests and their people. Thus, specific religious veils based on their own sagas were drawn in spite of being apparently different, whereas in reality all of the do report to the same theme assuring that each Ethnic was the only one chosen by God to be saved, be it **Quetzalcoatl, Manitu, Allah, Adonai, Brahma, Buddha, God, Krishna, Thor,** etc.

We shall start by cross referencing analytically, energetically and imagerial all **Traditions** since the ancient through the present ones, yet not pretending in no way to reach the early cause that can be a lot more impacting and splendidous.

We all know today that in order to make a **Lamp** glow it is necessary to connect it to two wires be them conducting **DC** [Direct Current: battery] or **AC** [Alternating Current: household power] as both exhibits opposite polarities in any given instant, thus allowing electricity to flow through the incandescent **Lamp** or through the semiconductor [**Led**] allowing it to **GLOW: LIGHT: WISDOM**.

This is the basic religious principle: to congregate people in a highly energetic mind activated place – Temple: a Sacred Geometry structure – where both gender individuals conducted by a Priest yet separated by a central corridor and united in a single yet powerful **Mind Desire: Holy [Mind] Communion – Communion – Like One We all shall Behave: the Shoal** – do establish a **Powerful Mind Current** that ‘**GLOWS**’ lighting all attendants in their prayers and hopes with the **UNCORRUPTIBLE WISDOM LIGHT!**

Whereas **WISDOM** roughly understood as a **DIVINE BLISS** in reality refers to the **UNCORRUPTIBLE UNIVERSAL CONSCIENCE** or **DIVINE CONSCIENCE** that permeates all Universe and for that reason it is not considered as a sole Earth Asset. Altogether as a **CONSCIENCE** it cannot make presence on directly interfere at Life, only through Humans, yet eventually only Men – but not every Man – could stablish a direct connection albeit temporary at an energetic place – Temple – with the **UNCORRUPTIBLE UNIVERSAL CONSCIENCE**.

Electricity wasn’t available 120 years back and earlier, thus Sages before XX Century had to rely on available symbolisms at their epochs. Also Ancient Sages didn’t know bacteria & micro-organisms and their outcome [the known references was pests, plagues, etc. – living close to the Desert – with no water or waste water plumbing and treatment while to wash your hands and ...!]. Obviously no **DNA** knowledge and Human Genome as well associated with the unknown disastrous consequences of a family marriage consanguinity.

Yet everyone knows Blood, and if for any reason it leaked from a Body, His/Her Life shall also follow it thus resulting in some religions a fake ‘understanding’ that it was the ‘soul’ of a person.

ILLUSION – MAYA

Western Tradition Kabbalah - The Perception Gates

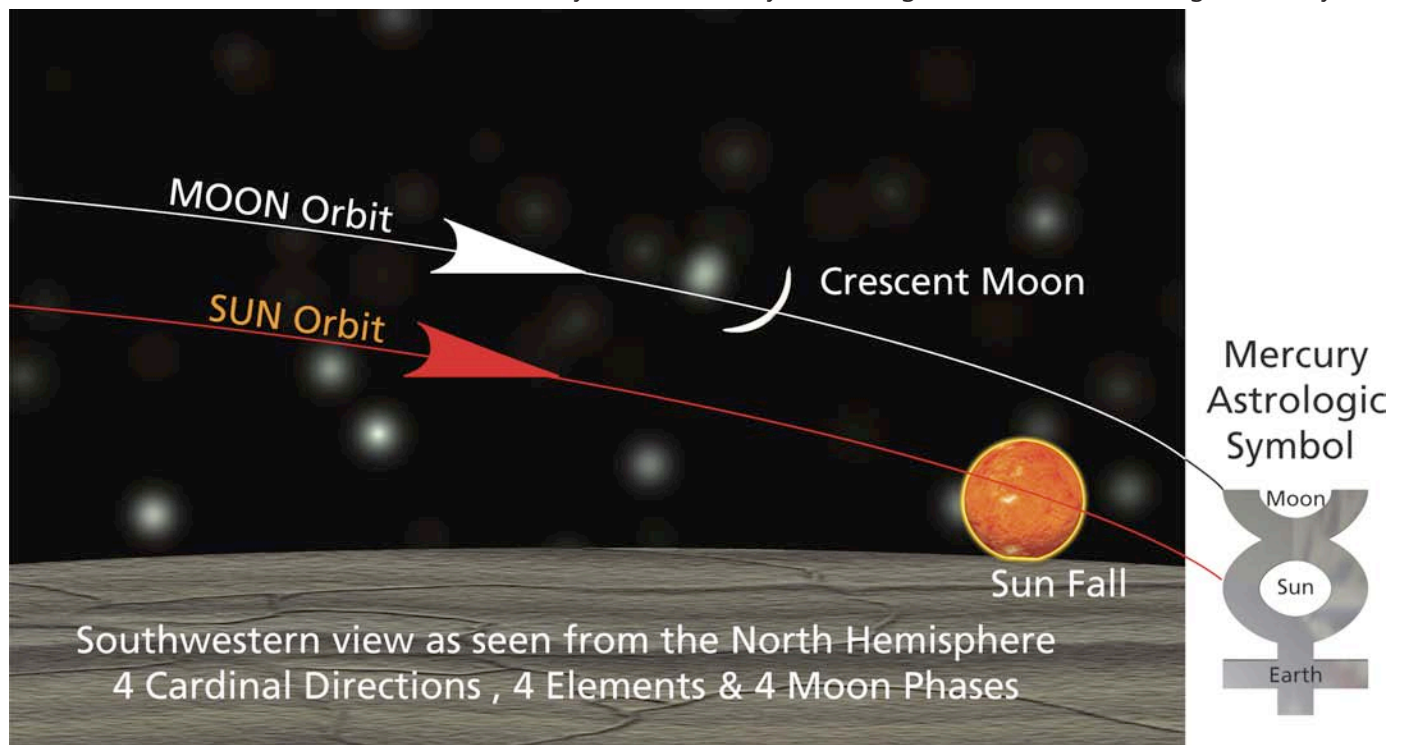

But every **Tradition** knows a 'coagulated' Blood: it is a natural phenomenon that a liquid and energetic flow which one carries oxygen & nutrients to all Body organs that when exposed to free air oxidation exhibits a solidification; while this knowledge – energy: nutrients – both past Priests and devotees had never reached. Altogether to infer that 'Blood' or all We are 'coagulated' **UNIVERSE ENERGY** and according to the 'coagulation' date, place and hour each one of us would receive an individual evolutive vehicle [Body] with some problems it would be an immense rampage.

From this standpoint it would disappear all sins derived from a bad or good behavior from 'past lives', yet remaining all those triggered at this life and/or believed to come from the unknown 'designs' of **GOD**: some rich and some poor, some healthy while others sick/disabled, etc.

Another cross reference 'complication' arouses when we apply the present knowledge that each Body organ owns an individual 'conscience' as even people with 'brain death' – without the Main Conscience – can be kept live albeit as an vegetable providing Blood continues to flow carrying nutrients and oxygen.

All **Traditions** do refer to a **Sole Creator** of everything [Universe & Nature] and everybody [Mankind] – without any exception all of them do guarantees that **HE** doesn't belong to this World, albeit **HE** went here to create! Compare with the **UNCORRUPTIBLE UNIVERSAL CONSCIENCE** concept.

Let's check what Ancient Sumerians, Assyrians and Babylonian Sages did observed at night fall Sky:

At their epoch telescopes didn't exist so visually Moon and Sun appeared to have the same size and as Mercury and Venus – the closest Planets to the Sun and always following it's orbit travel – do have the responsibility to brought the Life granted by the Sun – a Venus task – handled through the Moon as also to retrieve those that **Grew Their Conscience** enough to return to the Sun [**Sol Oriens**] – a Mercury Task.

This is how the **Return Symbol: Mercury** was idealized. The Moon orbit always cross the sunset sky above the Sun orbit thereby the Crescent [Virgin] Moon is the only one close enough to the Creator Sun [**Sol Oriens**] in order to hold it [**Holy Ghost**] at Her **Holy Wombs**, while Earth where Life explodes is represented by the Evolutive Cross with Four Arms: **4 Moon Phases**, **4 Elements**: Fire [Sun], Air [Holy Ghost], Water [Moon] and Earth [Mineral Kingdom] and the **4 Cardinal Directions**: North, South, East and West.

Also the **INRI** distich emblematically apposed at Christ Cross means in Hebraic: **I = Y: Yam** [Water], **N: Nour** [Fire], **R: Ruach** [Air] e **I = Y: Yebeshas** [Earth] and not the current version about it.

ILLUSION – MAYA

And the Life 'donation' Symbol: Venus – the Egyptian Ansata Cross – only differs from the Mercury Symbol by the absence of the **Wisdom** 'Horns' as Michelangelo portrayed Moses at his famous marble statue. **Mercury**, the Messenger of Gods is also known as the Greek God **Hermes** and as the Egyptian God **Thot**.

This is the fulcrum to not have female gender priests due women albeit Sages at Earth Life Mysteries cannot ever afford to reach the **Divine Domain** a fact that is not a demerit due without them Gods would never 'incarnate'.

On the other side this also do not mean that Men are Gods yet they are the ones [rare, not every Men] that can cognitively touch the **Divine Conscience**. The **Divine Completion** can only be reached in a orgasmic flesh union between both genders [opposite polarities of the Lower Ego] providing a Child is generated.

This is the same result – Egregore – granted by the Higher Ego in a Mercury Templar Rite, as every Temple is a female gender – see page **717**.

Let's confer now why every monotheist religion decided that in order to better conduct Mankind would be to consider the Lower Ego the 'Horned' **Satan** – the 'evil' daemon – in such a way that 'children' of all ages attending service at religious Temples do not attempt or try to experiment whatsoever are out of their reach by swapping the **Crescent Moon Wisdom** 'Horns' by the **Round Sol Oriens: The Higher Ego**.

We do have the **Egyptian Tradition** [Amon-Ra is a underworld God; God Osiris after being slaughtered by the underworld God Seti and his 72 aides had all his flesh and organs fragments spreaded along the Equator and after His wife Goddess Isis succeeded in collecting all His body parts and reshaped again His Holy Dead Body she did make sex with the Osiris corpse without the Phallus thus given birth to Horus] and the **Christian Tradition** [The Holy Ghost fertilizes the Virgin Mary given birth to Christ] we all do compound the Cells of the **Uncorruptible Divine Conscience** with some of us behaving as independent body organs while others do behave coordinately as our members conveniently instructed by our eyes, ears, nose and mouth commanded by the twin brain hemispheres that reassembles the **Crescent Moon**.

One should recall that with images is very difficult if not impossible to tergiversate!

Therefore, there are an vast array of research and field studies in order to allow all of us to individually progress as **Divine Beings** as we all are **Cells** that belongs to a very specific **Ethnic Patriarch**, while most of us could not even recognize the learning process path while others do take care of the 'cattle' raising however not quite well understood.

ILLUSION – MAYA

Western Tradition Kabbalah - The Perception Gates

From now on it is possible to also realize that **Abel** is the **Sun** due He 'warms' and 'lights' not only the 'good people' but also the 'evil ones' – a real 'paradox' – and for this reason eventually He is eclipsed [killed]; **Caim** is the **Moon** as He only 'pampers' those who deserve it: His Ethnic Family to receive the **Sun Bliss**; and **Seth** is **Earth** due He is also **Just and Righteous** as everything realized and performed at it shall be equanimous divided through the **Good Path** and the **Evil Path** as well sustaining the **Creator Intent [Sol Oriens]**.

This equanimous posture derives from a **Experimental Physics Law: The 3rd Newton's Law** that states: **"To every action do corresponds another one with the same intensity but on a contrary sense"** which obliges **Responsible Men** to only perform the **Just and Righteous** in order to minimize side effects.

Altogether being the **Moon** exclusively dedicated to Her **Family** due She is a **Life Giver** by feeding and sustaining it, she is also who takes their **Life Back: the 4 Moon phases!** Presently we all are at the **[Moon] Indian Goddess Kali Yuga Era** – the one that devours their children!

It is also noteworthy to recall that monotheists Traditions states that the Babylonian, Sumerian and Assyrian Traditions, did represent the '**Great Prostitute**'.

Monotheists Traditions do report to a **Virgin** be she Egyptian, Hebraic or Christian or to the **72 Qu'ran Virgins**. Yet there is no conceptual difference between the Sumerian '**Great Prostitute**' and the array of **Virgins** that follow due as it reports to a single **Goddess Inanna** available in order to permit Gods incarnation, while all others refers to a single **Virgin** pertaining to each Ethnic and this care has a reasoning:

We all know what might happen when women are promiscuous: no one can assure who is the children's 'father' – sexual diseases and pests are spreaded [AIDS, Syphilis, Gonorrhoea, Leprosy, etc.] – possible consanguinity sequels – heritages can't be honored, even solid ethnics can't be structured – there is a return to a **Wolfpack** time with an Alpha-male Wolf dominium exterminating or expelling all other male Wolves: the **Harem** – total war! Therefore it is crucial the formation of solid families!

On the contrary the Mankind evolution would be a lot more lengthy! Check the evolutive path at the illustration bellow:

Lilith / Inanna, was a Fertile Sumerian Moon Goddess who give all Gods a incarnation path by penetrating her, while 'exterminating' all.

By knowing why & how the **Capricornus** and **Cancer Tropics** arouses at the Earth Globe it still miss to reveal that to each Signus corresponds a 2 hours time interval being **Pisces** addressed not to a born date one but to those that borns between $\pm 6:00$ h a.m. and $\pm 8:00$ h a.m. (\pm variation is Latitude dependent).

And all Signus holding animals with 'Horns' depict evolutive graduation one: **12:00 h a.m. Tropic of Capricornus** identifies the next **Christ Nativity**: the '**Golden Child**' at **Sagittarius**. It is also the **Egyptian 'Slavery Escape' from the Lower Ego: The Cross**, this why it is viewed at the South Hemisphere.

Taurus Signus end: $\pm 4:00$ h a.m. identifies the incarnated graduation followed by **Aries Signus** that represents the **Deity [Patriarch]** level while it's end: $\pm 6:00$ h a.m. **Aries** matches the **Cross 'descend'** or a '**Fall**' deep inside **Moon Goddess [Virginal] Wombs**. This is the energetic foundation to **Christ 'burial'** and **His corpse disappearance** and to all dead Christians burials as well – also the same concept by dropping stones use at **Hebraic Tombs**: to seed a **Life return**. This is a cyclic energetic event that repeats '**ad nauseam**' since early cognitive times.

Therefore with the continuous eclosion of a multitude of **Gods [Patriarchs: Simple Humans: Ascended Masters]** ever since a long time before Sumerians Era one can now comprehend the misfit '**Great Prostitute**' concept whereas in spite of being a single Moon as she pass through 12 Signus in a year performing 13 different Lunations – an Astronomic fact – events that enable Christians Sages – Egyptians Sages in reality – the idealization of a single Virgin allegory mimetite Isis and in regard of Sufis Sages – Islam Creators – the 72 Virgins allegory awaits at Heaven their devotees [12 Signus each covering 30° of the Ecliptic and to each 10° Signus a decanate is defined that when splited in 5° halves (semi-decanate) whereas one represents Night and the other a Day totalizing $5^\circ \times 72 = 360^\circ$] to also adopt the **VIRGIN** concept!

From now on the Osiris God slaughtering metaphor with all His Body flesh and organs fragments spreaded along the Equator [Ecliptic] with each fragment 'falling' at an specific terrestrial hour as this fact happens instantaneously at the same Astronomic hour is a quite understandable result. It is also a companion wisdom to realize that several **Deities [Ethnics]** are in due formation course at Earth Crust and to each one a learning process full of **(IR)RESPONSIBILITY TASKS!** To each **Deity** do correspond a **Patriarch** or **Messiah**.

It becomes quite clear now the immense Wisdom of all Ancestrals Sages as they appeared at all Latitudes & Longitudes independently of any direct contact: **UNCORRUPTIBLE DIVINE CONSCIENCE** 'inspiration'!
